## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-10 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art does not teach in combination with the other limitations of the independent claims a radial piston hydraulic motor, which includes a free rotation valve which is built inside it and includes a spindle which is disposed in a spindle cavity and which is movable in the spindle cavity such that, in a free rotation situation, shoulders of the spindle block the working pressure inlet and outlet passages, so that, in a free rotation situation, springs press the pistons and the press rollers associated therewith to a bottom position and out of contact with the cam ring. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
